Stylish, exclusive and timeless design

Professional natural-wood-burning **IWONA GRILLS** branded garden grills.

Timeless IWONA GRILLS branded grills are manufactured by a Polish company, IWONA PELLETS Sp. z o.o. in a factory located in central Poland in the town of Rąbień AB near Łódź. Iwona Pellets company has been world leader in manufacturing of HYBRID fireplaces for pellet and wood.

Iwona Pellets products are sold in dozens of countries around the World.

After many years of gaining experience in designing, manufacturing, selling and servicing of advanced heating devices, our team has developed IWONA GRILLS branded grills – maintenance-free and durable devices with a timeless appearance in a form of a sculpture used not only for grilling.

Many suppers showed that grills, by this remarkable atmosphere of hearth and home, make all who take part in the feast, closer to one another. Gatherings in a wide circle of family and friends with IWONA GRILLS branded grills last much longer and remain in memory for a long time.

*IWONA GRILLS is a new style of spending
free time in a wide circle of family and friends.*

*Modern machine park
and experienced personnel*

Not only for professionals

IWONA GRILLS branded grills are loved by both individual users and professional chefs. They are used in houses, restaurants, hotels and guest houses. Catering events with IWONA GRILLS branded grills evoke positive impressions only.

Highest quality

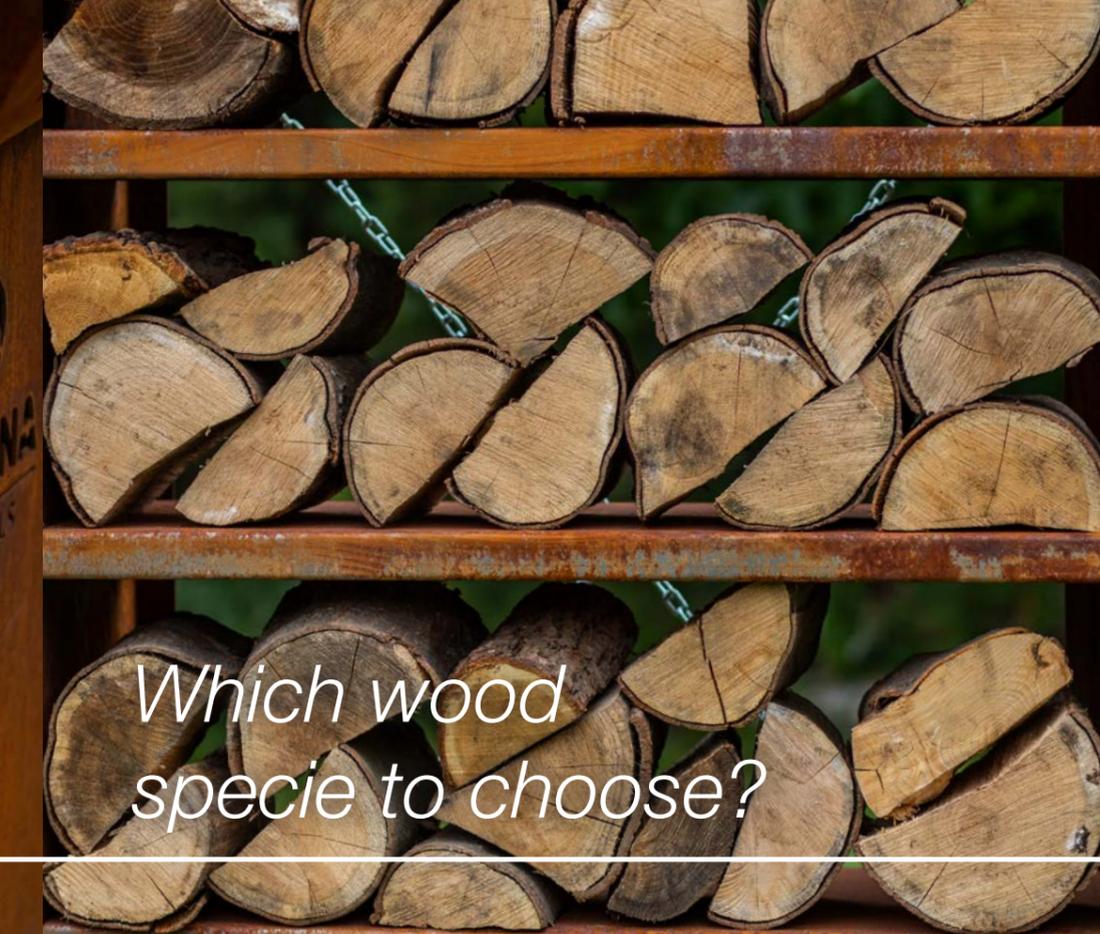

For years our products are appreciated at your houses and gardens, as we guarantee the highest quality of craftsmanship and many-year experience.

*New style of spending
free time with family and friends*

*Special aged steel with
the appearance of natural
corrosion*

*Which wood
specie to choose?*

IWONA GRILLS branded grills, tables and racks are resistant to any weather. These products are made of weather-resistant steel, also known as Aged steel which shows signs of corrosion. The process of corrosion may evolve with time, and thus steel colour may change.

Natural corrosion layer protects steel sheets against real corrosion, and therefore makes them resistant against damage for a long time.

It is essential that wood is very dry, therefore it catches fire quickly and generates no smoke.

Beech is the recommended wood specie. Beechwood burns very slowly and cleanly.

Best if pieces of wood at about 1kg are used. The smaller the pieces the less smoke is generated.

When lighting it is recommended to stack smaller pieces of wood and use environment-friendly fire lighter. For lighting, a long match is enough, and no additional blowers are necessary.

*Easy
cleaning*

IWONA GRILLS branded grills can be cleaned easily which is their big advantage. When grilling just scrape contaminations from heating plate sequentially using stainless-steel spatula. When heating plate is heated, a very simple way to scrape contaminations is to use cooking oil. Once grilling is over, simply apply cooking oil all over the heating plate.

*Profiled heating
plate with decline
towards centre*

Heating plate with temperature zones. Grilling is very simple – the closer the flame, the warmer – and each dish will find just the right place on the heating plate.

Thick heating plate is made of special grade of steel which prevents sticking when grilling. Heating plate is factory-profiled and has a decline towards the centre of the grill. Any contaminations, oils and greases have no impact on external surface of the grill when grilling.

Heating plates are made of grade of steel without protective coating, and thus it should be impregnated with cooking oil. Heating plates are also easily removable.

Use your grill all year round

IWONA GRILLS branded grills are exceptionally suitable for use in colder seasons, too. Alike with a natural bonfire, burning wood heats the surroundings around the grill, creating warm and cosy atmosphere even in frosty winter days.

Easy installation

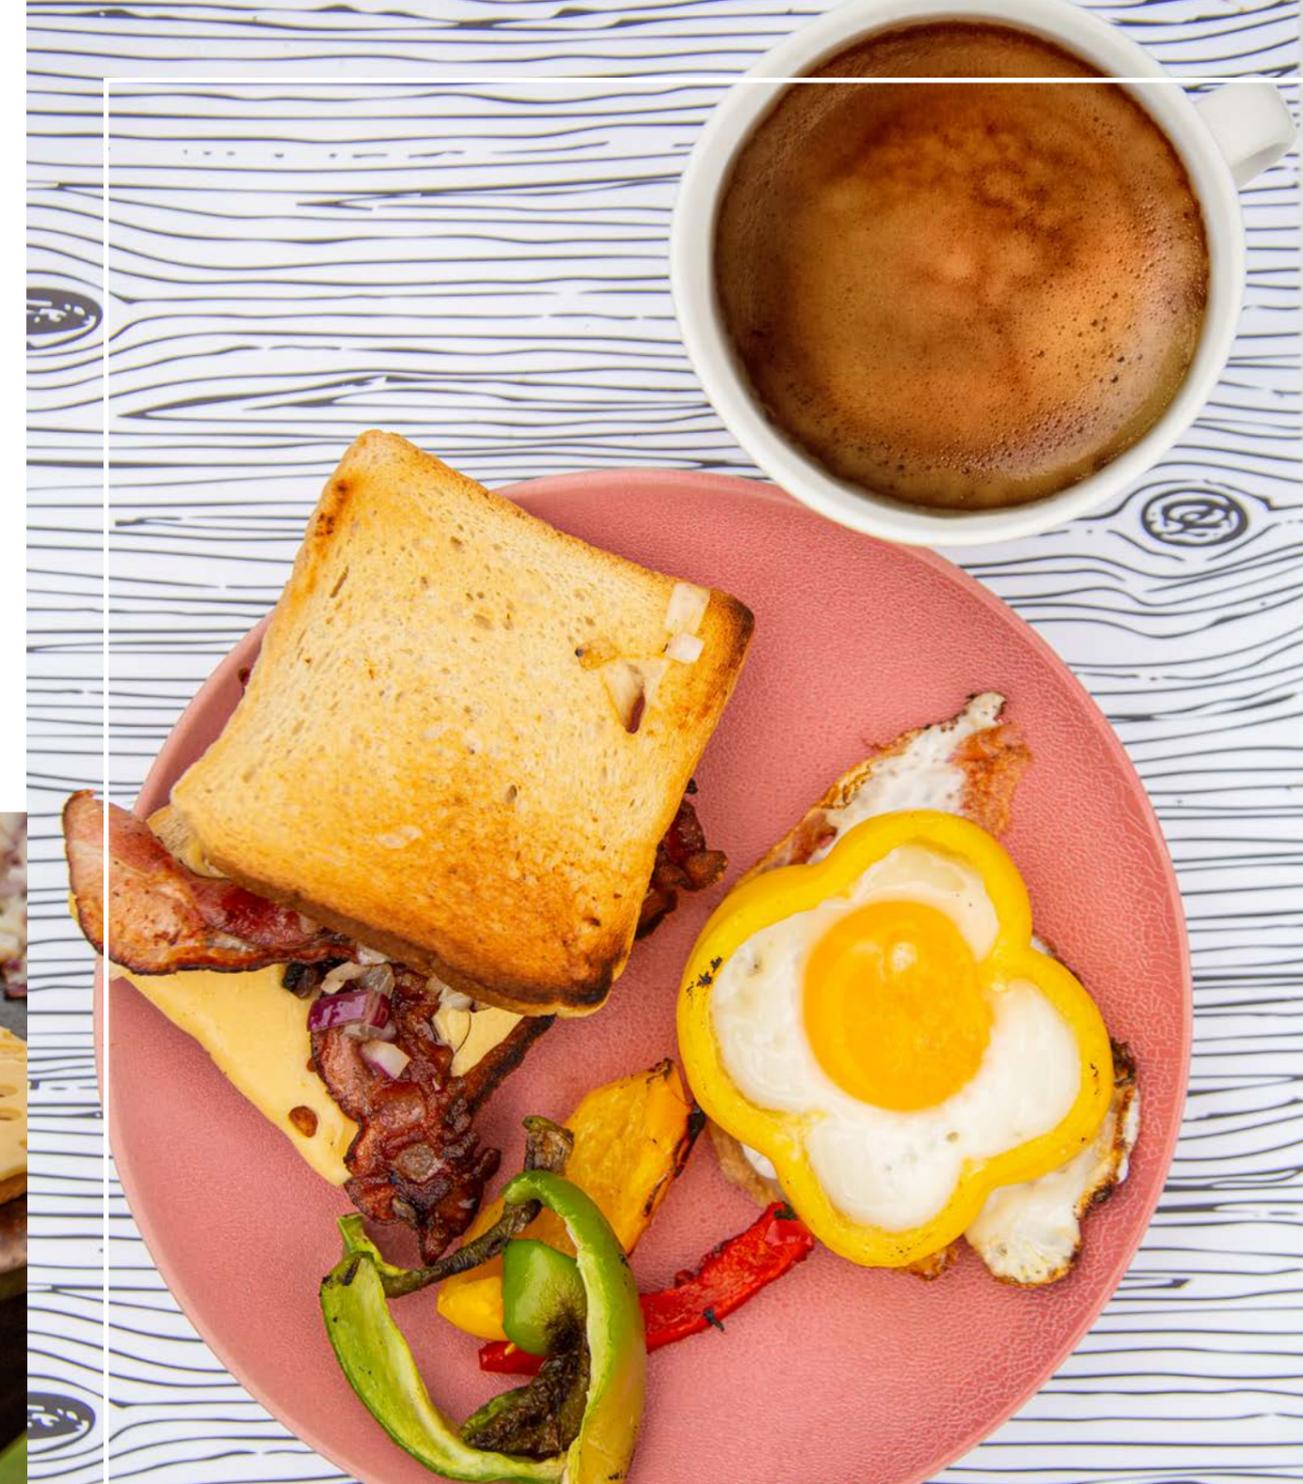

Grills are delivered disassembled, and their assembly takes 10 minutes.

Place the grill on a stable ground, and once hearth is screwed on grill base, level it using adjustable feet and a spirit level. Then insert heating plate and align it symmetrically. Levelling of the grill is particularly important so as to have contaminations on heating plate flow towards the grill centre rather than outside (heating plate is factory-profiled and has a decline towards the centre).

Great potential and thousands of dishes

The following presentation shows only a small number of dishes you can prepare using your IWONA GRILLS branded grill.
